

ALBIOMA

PRESS RELEASE

PARIS LA DÉFENSE, 7 JULY 2017

2016 DIVIDEND

Results of the option for the payment in the form of new shares

Albioma announces that the option for the payment of the dividend for the 2016 financial year resulted in the subscription of 404,117 new shares, i.e. over 75% of the coupons reinvested.

The option was to be exercised from 8 to 28 June 2017. It offered the possibility to have 50% of the dividend for the 2015 financial year (set at €0.57) paid in the form of new shares, issued at a price of €16.01 each.

The newly issued shares shall be admitted for trading on Euronext Paris on 10 July 2017, alongside existing shares (ISIN FR0000060402) and then delivered to financial intermediaries, who will register them in their clients' accounts. Cash adjustments for those who took up the option and the part of the dividend paid in cash will be paid out at this same date.

Next on the agenda: results for the first half of the 2017 financial year, on 26 July 2017 (after trading)

ABOUT ALBIOMA

Albioma is an independent energy producer and world leader in the conversion of biomass into a highly-effective source of energy, in collaboration with its agri-business partners. For more than 20 years, Albioma has operated power plants recovering bagasse, a fibrous by-product of sugar cane, replaced by coal outside the sugar cane harvest. Its unique expertise has enabled Albioma to establish itself as an indispensable partner in the sugar and ethanol industry in the French overseas territories and Mauritius. Albioma is now developing power plants using only biomass, which recover, in addition to bagasse, green waste and wood industry residue. The Group also operates a highly-efficient photovoltaic installation. In 2014, the Group, which already had a presence in mainland France, the French overseas territories and Mauritius, began operating in Brazil, the world's leading sugar cane producer.
