

ALBIOMA

Press release

Paris La Défense, 27 June 2019

Albioma wins 5.2 MWp of solar projects in France

Albioma is announcing today that it has won an aggregate power of 5.2 MWp during the seventh session of the invitation to tender for solar rooftop installations (AO CRE4 "Power plants on buildings, greenhouses and agricultural facilities and parking shadehouses of between 100 kWp and 8 MWp") held last March.

The four winning projects are located in mainland France, in a broad south-east corner as well as in the south-west, and will be commissioned at the end of 2020.

Albioma acquired Eneco France in December 2018, thereby enabling the largest solar energy producer in the Overseas territories to strengthen its position in photovoltaics in mainland France.

Frédéric Moyne, Chairman and CEO of Albioma said, "We are very pleased to be the winners of this tender procedure. This step underlines the relevance of the Albioma Group's strategy, focusing on the development of innovative solar projects without conflict of use in Overseas France where we are the leader, but also in mainland France, where we have reinforced our presence thanks to the acquisition of Eneco France in December 2018 and the creation of the Albioma Solaire France division. This success extends our portfolio of solar projects, which will continue to grow in the coming years."

Next on the agenda: results for the first half 2019, on 24 July 2019 (after trading).

About Albioma

An independent renewable energy producer, Albioma is committed to the energy transition thanks to biomass and photovoltaics.

The Group, which is established in Overseas France, Mauritius and Brazil, has developed a unique partnership for 25 years with the sugar industry, to produce renewable energy from bagasse, a fibrous residue from sugar cane.

Albioma is also the leading generator of photovoltaic power overseas where it constructs and operates innovative projects with integrated storage capabilities.

Albioma shares are listed on NYSE EURONEXT PARIS (sub B) and eligible for the deferred settlement service (SRD) and PEA-PME plans (ISIN FR0000060402 - ticker: ABIO).
